Hello and nice to meet you

I'm Ogura Hideo

This my second collab draw with Kohaku-san

I barely made the deadline. (I'm terrible)

What we drew this time is a volume about robots,

or rather, high intelligent humanoid robots

There is the big type humanoid

Kohaku-san drew the same type humanoid

(Very entry for the future)

... Still haven't finished anything (Very entry for the present)

My manga... hasn't started at all. I'm very sorry

Will they talk in long... and stuff...? I'm really very sorry

And what will Hideo's same type robot be like. I wonder!!

Much anticipation!

Hopefully this book will bring your happy time

just that little bit of happiness!

Thank you very much for purchasing this book

However,
science is
progressing.

Robots have
already become
a widespread
existence
in the world!

I thought that
some magnificent
future would
await me once
I grew up.

But a dream city
like the one in
d'raimon did not
materialize at all.

And then...

reckaboo!

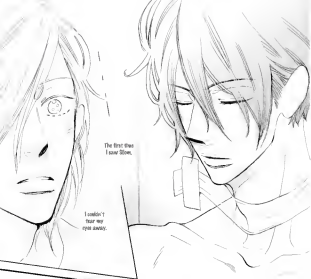

ICHI...!

KYOU~

The first time
I saw Sloe,

I couldn't
tear my
eyes away.

IF YOU
DON'T NEED
ME,

THE
HAPPINESS
SYSTEM WILL
PRETTY SOON
STOP FUNCTI-
ONING.

KYOLICH'S
NEED FOR
ME IS ONE OF
MY POWER
SOURCES.

KYOLICH
DOESN'T NEED
ME...?

THOUGH I
CAME BACK TO MY
GENES PRETTY
QUICKLY...

HUH?

...YOU'RE NOT REALLY UN-NEEDED, PER SE.

Probably

WELL... HE IS ONE WHO ALWAYS DOES ALL THE CHORES...

...

...I MAY ALSO STOP MOVING.

Eyes
Glittering

OH!
BUT,

IF YOU STOP MOVING THEY'LL PROBABLY LET ME EXCHANGE YOU FOR A DIFFERENT ROBOT!

Unahai

Is it's ability to
operate for the
"happiness" of
it's master.

What's special
about this function

Is this...

The function that Silas
was talking about , ?

but the Happy System

SPEAKING
OF WHICH,
I STILL DON'T
KNOW WHAT
EXACT
FUNCTION
IT IS...

Am I
REALLY
LIKE THE
SMELL OF
LAUNDRY
POWDER?

IT SMELLS
SO GOOD...

In other
words...

And this will also
undergo changes in
behaviour according
to the master's
circumstances.
[eg. cleaner robot,
older brother robot
etc.]

SOFT
REALLY
A HOUSE-
KEEPING
ROBOT... IT

It's because
I don't do
housework!!

So it's because...

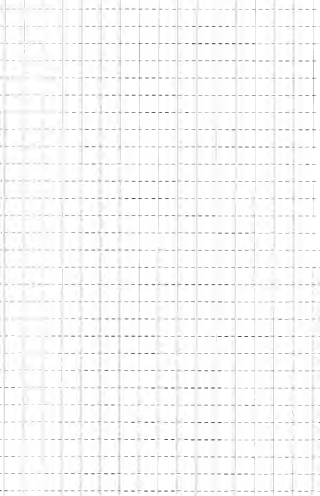

I looked really happy...?

..Egon
-ichi,

overflow

HE'S
ALWAYS DOING
LAUNDRY

SO USELESS.

The so called
"robots"
have pretty
much...

All been
created to
fulfill some
purpose or
another.

WHAT WAS
THE POINT IN
BUYING YOU...?

RIGHT?
BEING A ROBOT,
YOU'RE SOMEHOW
STILL HOPELESS AT
EVERYTHING...

YOU...

Gramps had an
accident during
a trip. This guy
ended up being
part of my
inheritance and
was delivered
here a few days
ago.

I always ended
up missing" my
grandfather,
who had been
taking care
of me in place
of my parents.

GRANDPA

ALWAYS
TALKED TO
ME ABOUT
AKIRA...

MY THOUGHTS
WERE FILLED
WITH AKIRA...

.....

I'VE WANTED
TO MEET YOU

I...
HAVE MADE
THAT WISH TO
GRANDPA...

Despite being
an old model,
this robot
still has a
beautiful
body...

Seeing how spoilt
he likes to act
simply shows how
well he's been
taken care of.

補委員長♥

I CAN TELL
FROM YOUR
SWEAT
AND HEART
RATE...

WHY DO YOU
ALWAYS SAY THE
OPPOSITE OF WHAT
YOU MEAN...?

YOU AND
GRANDPA ARE
REALLY ALIKE.

*I hate people
bothering me..!*

I thought...
I was the
only one left...

Inside this useless robot's body.

It's all
ME.

Either
way,

It's not like I can't
afford to have him.
I wish that every-
thing will be better
in the future.

Thanks for the hard work!
I'm Kohaku Akhara, responsible for writing the postscript :)
Manga's gone finished drawing yet and we're writing
the postscript. Time is short :)
I really wanna escape this restricted lifestyle :)

- This time the theme was robots, how did everyone feel about it : ?
As long as everyone felt a tiny bit of satisfaction,
I'll be very happy!
- How've been wanting to draw a robot manga since I was little
(I love the Bat anime manga)
I'm so happy to have been able to draw it!

- There is a possibility I may not have already
learned my lesson and draw robots again :
It'd be good if everyone would buy it again :
Next time I want to maybe draw an alien-type robot
I'm very much looking forward to Oga-aga's manga.

Well then :
Thank you very much for reading this far!
